

Around Notes acts as a Business Associate to Covered Entities handling PHI.  
PHI is stored in HIPAA-eligible AWS regions with encryption in transit and at rest.  
Sub-processors (OpenAI, Google Cloud, AWS) operate under HIPAA-aligned BAAs.  
We support minimum necessary use, access controls, auditing, and incident response.  
Customers remain responsible for user management and proper PHI handling workflows.  
Request a countersigned BAA by emailing [support@aroundnotes.ai](mailto:support@aroundnotes.ai)
